CHITTAGONG,:

The day of

The Chittagong Port Bill.

STATEMENT OF OBJECTS AND REASONS.

THE existing law to provide for the management of the affairs of the Port of Chittagong is contained in Bengal Act IV of 1887, as amended by Bengal Act IV of 1903 and Eastern Bengal and Assam Act I of 1912. When Bengal Act IV of 1887 was passed, there was no railway to Chittagong and there were no jetties for ocean-going ships. Various provisions of that Act have been found unsuitable for the present requirements of the Port, and the time has come for a new Act on the lines of the more recent enactments for other Indian ports.

2. Of the amendments in the existing law proposed in the Bill, the following are the more important: –

(1) A change has been made in the mode of election (clause 8).

(2) Power has been given to the Commissioners to appoint committees of their number (clause 20).

(3) The restrictions on the power of the Commissioners to enter into contracts, to undertake new works, and to make additions to establishments have been relaxed (clauses 28, 30 and 33).

(4) Provision is made for the establishment of a Provident Fund (clause 35).

(5) Enlarged powers have been given in respect of pilots (clause 37).

(6) Additions are made to the list of works which may be undertaken by the Commissioners (clause 38).

(7) The power of the Commissioners to acquire or dispose of property is enlarged (clause 69).

(8) The provisions *re* the borrowing powers of the Commissioners have been amplified (clauses 74 to 81).

(9) The preparation of estimates and accounts has been more fully dealt with (clauses 86 to 94).

3. A further explanation of the provisions of the Bill is given in the subjoined notes on clauses.

NOTES ON CLAUSES.

Clause 3.—It has been thought necessary to make express provision, as in section 3 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905), for the continuity of rights, obligations and liabilities, so that the Port Trust constituted under the Bill may become the successor of that constituted under the existing Act.

Clause 6.—A general power to do all things necessary for the purposes of the constitution of the Port Trust has been given as in section 6 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905).

Clauses 7 and 23.—As in the case of Karachi—see section 7 of the Karachi Port Trust Act, 1886 (Bom. Act VI of 1886)—it has been provided that the Agent of the local railway shall be, *ex officio*, a member of the Port Commission.

It has also been provided (clause 23) that in his absence from Chittagong the Agent may be represented on committees and at meetings by a railway officer nominated by him.

The proviso that not more than four of the nine Commissioners shall be salaried officers of Government is similar to the proviso in section 7 (*1*) of the Rangoon Port Act, 1905 (Bur. Act IV of 1905), and is in accordance with the practice hitherto followed in Chittagong.

Clause 8.—The Chamber of Commerce at Chittagong was inaugurated in 1906 and the Chittagong Indian Merchants' Association in 1907. The proposed provisions regarding election by these bodies follow those in section 6 of the Calcutta Port Act, 1890 (Ben. Act III of 1890).

Clauses 10 and 11.—The Bengal General Clauses Act, 1899 (Ben. Act I of 1899) will permit of *ex officio* appointments. Following the Rangoon Port

The Chittagong Port Bill.

STATEMENT OF OBJECTS AND REASONS—*contd.*

Act, 1905 (Bur. Act IV of 1905) it is provided that the *ex officio* Commissioners shall continue until the Local Government otherwise direct. A similar provision is made as regards the Chairman and the Vice-Chairman.

It has also been provided that Commissioners appointed by name or elected shall hold office until their successors are appointed or elected. This will prevent inconvenience arising should there be any delay in appointing or electing their successors.

Clause 12.—In relaxing some of the disqualifications for membership of the Port Commission, the provisions of section 11 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905) have been followed. Thus a Commissioner is allowed to have an interest in a contract for work, if the sanction of the Local Government thereto is obtained; and he is allowed to have an interest in a purchase or lease of land or premises or in an agreement for landing or shipping goods.

Clause 13.—It is found inconvenient that Commissioners should absent themselves from the meetings for long periods. It is now provided that such absences may not exceed 3 months without permission, and 6 months with permission.

Clause 14.—It may not always be convenient to fill up a vacancy within one month, so it is provided that the Local Government may extend that period for reasons to be recorded.

Clause 18.—Provision has been made, as in section 8 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905), to grant leave and leave allowances to the Chairman as well as to the Vice-Chairman. At some future date it may possibly be necessary to have a full-time Chairman or Vice-Chairman.

Clause 20.—For some time past it has been found necessary to distribute the work of the Commissioners among sub-committees, *e.g.*, a Finance Sub-Committee, a Works and Stores Sub-Committee, and a Marine Sub-Committee. There is no specific provision in the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), for the appointment of such committees, and it is deemed advisable to insert a provision similar to that in section 29 of the Calcutta Port Act, 1890 (Ben. Act III of 1890).

Clause 22 (2).—It has sometimes been found desirable to call a special meeting with less than three days' notice. It is now provided that the Chairman or Vice-Chairman may certify that the business to be transacted is of an urgent nature, and that a meeting may thereupon be held after such notice as the circumstances of the case permit.

Clause 25 (b).—A proviso has been added allowing additional business to be transacted at an ordinary meeting if two-thirds of the total number of Commissioners are of opinion that the matter is urgent.

Clause 25 (d).—A proviso has been added on the lines of section 14B of the Bombay Port Trust Act, 1879 (Bom. Act VI of 1879), and section 16 (*e*) of the Rangoon Port Act, 1905 (Bur. Act IV of 1905), to prevent a Commissioner from voting on any matter in which he is pecuniarily interested, although the interest may not be of the kind specified in section 12.

Clause 25 (g).—This sub-clause is based on section 16 (*g*) of the Rangoon Port Act, 1905 (Bur. Act IV of 1905), and will enable the public and the press to obtain copies of the minutes in cases in which there is no special objection.

Clause 27.—This clause follows section 47 of the Calcutta Port Act, 1890 (Ben. Act III of 1890), and provides for the exercise of certain powers by the Chairman or Vice-Chairman. Such powers have been exercised in practice, and their authorisation in the Act is necessary.

Clause 28.—Section 65 of the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), places excessive restrictions upon the making of contracts. A contract exceeding Rs. 200 in value may not be entered into by the Chairman, Vice-Chairman or other Commissioner, acting alone, and the assent of the Local Government is necessary in the case of any contract exceeding Rs. 10,000. It is now proposed that the Chairman shall have power to execute contracts not exceeding Rs. 2,500 (half the amount allowed under section 23 (*1*) of the Rangoon Port Act, 1905), and that the assent of the Local Government shall be requisite only when the contract exceeds Rs. 25,000—half the amount allowed under section 48 of the Calcutta Port Act, 1890 (Ben. Act III of 1890).

The Chittagong Port Bill.

STATEMENT OP OBJECTS AND REASONS—*contd.*

Clause 30.—The provisions in section 66 of the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), that any new work exceeding Rs. 5,000 must be previously sanctioned by the Local Government, and such sanction published in the official Gazette, and that any new work exceeding Rs. 10,000 must be previously sanctioned by the Governor General in Council, are unnecessarily restrictive at the present time, and have caused considerable inconvenience and delay.

It is therefore proposed to raise the figures to Rs. 25,000 in the case of the Commissioners, that is, to half the corresponding amount provided for by section 51 of the Calcutta Port Act, 1890, and section 21 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905).

In the Madras, Bombay and Karachi Port Acts there appears to be no provision for the sanction of the Government of India to Port works, and such a provision has, therefore, also been omitted in the Bill.

It is also proposed [sub-clause (*i*)] that, as in the case of Superintending Engineers, the Chairman may approve plans and estimates up to a limit of Rs. 2,500.

Publication of the Local Government's sanction in the official Gazette is not required in the case of other Ports and seems unnecessary in the case of Chittagong.

Clause 31.—The express conferment of the power to compound has been considered necessary.

Clause 32.—This clause is based on section 28 of the Calcutta Port Act, 1890 (Ben. Act III of 1890) and will save the acts of the Commissioners from being invalidated by formal defects.

Clause 33.—The provision in section 62 of the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887) that the previous sanction of the Local Government is required to any addition or alteration in the schedule of establishment, has caused inconvenience and delay. Moreover, under the Bengal Municipal Act, 1884 (Ben. Act III of 1884) Municipal Commissioners may create appointments of which the salary is less than Rs. 200 a month.

It is therefore proposed to allow the Commissioners to create posts not exceeding Rs. 100 a month in value.

The provision of section 53 of the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), allowing the Commissioners to elect one of their number to be their Secretary has been omitted, as it has not been found feasible to make such an appointment. A Secretary may be appointed as one of the Commissioners' officers.

Clause 34.—This clause in respect of temporary establishments follows section 28 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905).

Clause 35.—As in section 26 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905), provision has been made for the framing by the Commissioners of by-laws for the establishment and maintenance of a provident or annuity fund for the Commissioners' officers and servants.

It seems no longer necessary, as in section 64A of to the Chittagong Port Commissioneres Act, 1887 (Ben. Act IV of 1887), to provide that by-laws *re* pensions, etc., shall be confirmed by the Governor General in Council. It is now provided, as in the Rangoon Act, that the confirmation of the Local Government shall be sufficient.

Clause 36.—This clause follows section 27 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905), as regards the appointment, etc., of officers and servants, except that the limit for appointment by the Chairman at Chittagong is Rs. 100 a month instead of Rs. 200 as at Rangoon.

Clause 37.—This clause is based on section 72 of the Bombay Port Trust Act, 1879 (Bom. Act VI of 1879), and on section 55 of the Karachi Port Trust Act, 1886 (Bom. Act VI of 1886), and is intended to enable the Commissioners to frame by-laws in respect of pilots similar to those in force at Bombay and Karachi.

Clause 38.—This clause follows the Calcutta Port Act, 1890 (Ben. Act III of 1890), in adding, to the list of works which may be undertaken by the Commissioners, docks, railways, places for sampling and selling goods, and ferry steamers. The Port Commissioners of Chittagong have already a railway in the revetment siding, and will before long have to construct a dock. A mart for selling goods and ferry steamers may follow.

The Chittagong Port Bill.

STATEMENT OF OBJECTS AND REASONS—*contd.*

Clause 39.—A sub-clause based on section 65 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905), has been added providing for the previous publication by the Commissioners of the draft of proposed by-laws.

Clauses 43 to 48.—In these clauses, words have been added with intent to make it clear that the provisions enabling the Port Commissioners to compel vessels to use or quit wharves, etc., can be applied to the railway terminal jetties at Chittagong constructed by, and at present belonging to, the Assam-Bengal Railway Company. It is considered that, with the safeguard provided in clause 47, it will be in the best interests of the Port to apply the provisions of the compulsory clauses to these railway jetties.

Clause 48.—In providing limits of 24 hours instead of 36, and of Rs. 500 instead of Rs. 100, this clause follows section 73 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905). The change is required in existing conditions.

Clause 50.—The provision of section 27 of the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), *re* the granting of a receipt by the Port Commissioners for goods landed by them has been extended to the Assam-Bengal Railway Company, as that Company lands goods from vessels at the terminal jetties.

Clauses 51-67.—These clauses follow mainly the provisions of the existing law. By clause 59 provision is made for the levy of a customs duty on jute as in section 84 of the Calcutta Improvement Act, 1911 (Ben. Act V of 1911). See also Clauses 39 (*1*) (*e*), 60, 64, and 67 in this connection.

Clause 53.—Owing to the absence of any provisions in the Chittagong Port Commissioners' Act, 1887 (Ben. Act IV of 1887), for the registration of cargo-boat traffic, it has been found difficult to secure the registration of cargo that is so carried as, under the Sea Customs Act, 1878 (VIII of 1878), cargo-boats are not required to enter or clear at a Custom House. In Calcutta, such trade statistics are compiled by the establishment employed at the Inland Vessels wharves where cargo-boats are required to call, but there are no such wharves at Chittagong. Clause 53, by compelling cargo-boats to call at Traffic Registering Stations, will enable the trade statistics of the Port of Chittagong to be more accurately compiled in future.

Clause 69.—By section 12 of the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), it is provided that the previous sanction of the Local Government is required to the acquisition or disposal of any property, movable or immovable. It is impossible to obtain such sanction in the case of all movable property, and such sanction should not be necessary in the case of short leases of immovable property. As in section 55 of the Calcutta Port Act, 1890 (Ben. Act III of 1890), and section 29 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905), it is now provided that the previous sanction of the Local Government shall be required only to the *sale* of any immovable property, and to the lease of such property for more than ten years.

Clause 74.—This clause is based upon section 10 of the Burma Port (Amendment) Act, 1912 (Bur. Act III of 1912) and section 4 of the Bombay Port Trust (Amendment) Act, 1913 (Bom. Act III of 1913), and makes the borrowing powers of the Commissioners for the Port of Chittagong identical with those of the Port authorities of other leading Ports in India.

Clauses 75-80.—These clauses are based generally on Chapter VI of the Rangoon Port Act, 1905 (Bur. Act IV of 1905). Chapter VII of the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), contains no provision for the establishment of a Sinking Fund, or for the repayment of Government loans before due date, and no provision defining the position of the Secretary of State as against debenture-holders.

Clause 81.—This clause is new and provides for the disposal of unexpended balances.

Clause 82.—Provision has been made for the keeping of money in the Bank of Bengal, Chittagong, instead of in the Government Treasury, as this, it is believed, will be a more convenient course. In this respect, and in respect of temporary investments, the clause follows section 43 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905).

Clause 83.—This follows section 44 of the Rangoon Port Act, 1905 (Ben. Act IV of 1905) in providing for the investment of balances and special

STATEMENT OF OBJECTS AND REASONS—*concld.*

funds. Such investment has already taken place in practice, and a special "Depreciation Fund" has been established by the Commissioners.

Clause 84.—This clause supplies an omission in the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), in providing for the application of the moneys of the Port Commissioners. It follows section 45 of the Rangoon Port Act, 1905 (Bur. Act IV of 1905).

Clauses 86-94.—The meagre provisions contained in sections 68 and 69 of the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), in respect of the preparation and submission of estimates and accounts have been amplified on the lines of Chapter VIII of the Rangoon Port Act, 1905 (Bur. Act IV of 1905).

Clause 95.—The word "control" has been substituted for the word "approval," as it is impossible that all the acts and proceedings of the Port Commissioners and their servants should be reported for approval. Power is given to the Local Government to prescribe what acts and proceedings shall be reported and in what form.

Clause 97.—As in the case of Calcutta and Rangoon, the Local Government is empowered to insist upon the imposition or raising of rates.

Clause 98.—This clause is based upon sub-section (2) of section 107 of the Calcutta Port Act, 1890 (Ben. Act III of 1890), and is intended to provide for the modification of scales and rates which, though approved by the Local Government when originally framed, have, with, lapse of time and change of circumstances, become unsuitable.

Clause 104.—It has been deemed desirable to raise the maximum of the fine for an infringement of by-laws made under section 39 from Rs. 50 to Rs. 100; and of the further daily fine for continuance of the infringement after notice from Rs. 10 to Rs. 100 as in section 65 (2) of the Rangoon Port Act, 1905 (Bur. Act IV of 1905). The Bengal General Clauses Act, 1899, makes it unnecessary to reproduce the provisions of section 76 of the Chittagong Port Commissioners Act, 1887 (Ben. Act IV of 1887), as to imprisonment in default of payment of fines.

Clauses 106 to 113 represent certain useful provisions of a supplemental nature which it is thought desirable to include in the Bill.

H. F. SAMMAN.
Secy. to the Govt. of Bengal.

Nos. 419-435. dated Simla, the 19th September 1913.

RESOLUTION—By the Government of India, Department of Education.

THE Government of India have had under their consideration the recommendation of the Conference of Orientalists held at Simla in July 1911 that opportunity should be afforded to Indian students to accompany Conservators in order to learn the principles and practice of architecture. They have decided in communication with those local Governments, who have consulting architects, to award three scholarships of the value of Rs. 100 a month to Indians, in order to facilitate this training. As there are greater facilities for architectural education, and for a combination of a thorough course of theoretical instruction with practical training, in Bombay than elsewhere in India, they have decided that these scholars should be trained in the office of the Consulting Architect to the Government of Bombay.

2. The conditions of the three architectural scholarships will be as follows :—

(*a*) the scholarships which are open to all natives of India will be of the value of Rs. 100 a month each, the cost of which will be defrayed from Imperial revenues;

(*b*) the scholarships will be granted for architectural training at the office of the Consulting Architect to the Government of Bombay where the scholars will also attend the architectural classes at the Sir J. J. School of Art. They will be tenable for a period of three years in the first instance, but may be extended to a fourth year on the condition that the scholarships for that year will be given only to those scholars who pass a certain standard to be prescribed hereafter in an examination at the end of the third year's training;

(*c*) at the close of their training those scholars who appear to possess the necessary aptitude will, so far as possible, be taken into the Archæological Department in order to give them special practical instruction for one or two years on a suitable salary.

3. The following procedure will be observed in the selection of candidates for the scholarships:—

(*a*) each local Government will be asked to nominate as soon as possible a candidate who has taken the B.A. or other equivalent degree in an Indian University. These qualifications will only be dispensed with in exceptional cases. The candidate must produce a medical certificate of physical fitness to undergo the proposed courses of study at Bombay;

(*b*) the Government of India will select three scholars from among the candidates nominated by the local Governments.

4. The candidates to whom the scholarships are awarded will proceed to Bombay and report themselves to the Consulting Architect to the Government of Bombay not later than a certain date to be fixed hereafter. The scholarships will be payable from the dates of the report of their arrival in Bombay.

ORDER.—Ordered that a copy of this resolution be forwarded to all local Governments and Administrations for information and necessary action at an early date.

Ordered, also, that a copy be forwarded to the Finance / Foreign / Public Works / Director-General of Archæology in India Department for information and that the resolution be published in the supplement to the *Gazette of India*.

The Governor-General in Council accordingly requests all Local Governments and Administrations to make the above intimation as widely known as possible, particularly in places from which emigration to Canada is believed to be most common. Intending emigrants should also be warned at the ports of embarkation of the risks they run in proceeding to that country.

No. 148Marine.—The following draft of amendments which the Governor in Council intends, in exercise of the powers conferred by section 10 of the Indian Merchant Shipping Act, 1859 (I of 1859), to make in the rules for the conduct of examinations for Masters and Mates of Foreign-going and Home-trade Ships and as to the qualifications to be required, published under the Notification of this Department No. 113Marine, dated the 14th November 1910, as amended by notification No. 109Marine, dated the 7th October 1912, is published for the information of persons likely to be affected thereby.

The draft amendments will be taken into consideration on or after the 1st January 1913, and any objections or suggestions, with regard thereto received by the undersigned before that date, will be duly considered.

Bengal Government notification No. 110Marine, dated the 12th August 1913, is hereby cancelled.

H. H. GREEN,
Offg. Secy. to the Govt. of Bengal.

Draft amendments.

In the first line of rule 5, after the words "sea-service" *insert* the words "in the foreign or home trade."

For rule 25 (1) *substitute* the following:—

"25. (1) Every candidate for a certificate of competency of any grade will be required to produce a certificate from the St John Ambulance Association, the St. Andrew's Ambulance Association, the St. Patrick's Ambulance Association, the London County Council, or other approved body to the effect that he has passed an examination in First Aid to the Injured."

After rule 25 (2) *add* the following:—

"Certificates issued by the St. John Ambulance Association more than three years before the examination for a certificate of competency will, however, be accepted, provided that, at the expiration of three years since its issue, the certificate has attached to it the 'Voucher' or 'Label' of the Association certifying that the holder has passed re-examination in FirstAid."

For rule 25 (3) *substitute* the following:—

25. (3) If a candidate does not possess such a certificate of proficiency in First Aid, he should apply some time before he wishes to sit for examination for a certificate as Master or Mate to the local Secretary of the St. John Ambulance Association in Calcutta, who will inform him of the available facilities for the instruction and examination of candidates in First Aid.

A list of the names and addresses of the local Secretaries of the approved Associations is given in Appendix C, page 53.

For rules 26 and 27 *substitute* the following:—

SIGHT TESTS.

26. Every candidate for a certificate of competency must pass the prescribed sight tests before a certificate can be issued to him. If circumstances render it necessary for him to proceed with the examination in navigation and seamanship before undergoing the sight tests, he should be informed that the examination in navigation and seamanship will be cancelled in the event of his failure to pass either of the sight tests.

(1) *Form vision test.*—Every candidate for a certificate must pass the form vision test. If he presents himself for examination before January 1st, 1914, he will only be required to possess half normal vision using both eyes together. A candidate who has obtained a certificate before that date will be allowed to obtain his higher certificates on the same standard of vision.

Any candidate may, and every candidate presenting himself for examination for his first certificate on or after January 1st, 1914, must pass a higher standard, viz., normal vision using both eyes or either eye separately.

Any candidate who has obtained his first certificate under these conditions may obtain his higher certificates, provided that he has normal vision using both eyes or either eye separately.

Detailed information with regard to the conduct of the examination and the standards required is contained in Appendix O.

(2) *Colour vision tests.*—These tests comprise a wool test and a lantern test, and full particulars with regard to the methods adopted are given in Appendix O.

Every candidate must undergo the colour vision tests on the first occasion on which he presents himself for examination for a certificate of competency; but, if he then passes, he will not be required to undergo the colour vision tests on any subsequent occasion. No person who holds a certificate of competency should be allowed to be examined in colour vision.

(3) A candidate who fails to pass the prescribed form vision test may present himself for re-examination at intervals of three months. A candidate who fails to pass the colour vision test, is not allowed to be re-examined. In the case of a candidate who is referred for further examination the Port Officer will make arrangements for a special examination and it is also open to any candidate, who is adjudged to have failed in the colour vision test, to appeal to Government, who may, if they think fit, remit the case to a special body of examiners for decision.

(4) The Government will repay, at a rate which will be notified to the candidate, the travelling expenses of any candidate, who is referred for further examination, as well as the travelling expenses of any candidate who, having appealed against failure, is reported by the special examiners to have passed. No payment whatever will be made towards the expenses of candidates who, upon their own application, are examined by the special examiners, and are reported by them to have failed, unless Government consider that the particular circumstances of the case justify such payment.

(5) When a candidate fails to pass the colour vision test, the examiner will point out to him the conditions under which he can appeal. Appeals are to be made through the Port Officer and forwarded to Government with the examiner's remarks.

(6) Only examiners who have themselves passed the colour vision tests are to undertake the examinations.

(7) The fee paid for examination for a certificate of competency includes the fee of one rupee for examination in form and colour vision, and if the candidate fails to pass those tests, this fee will, with the exception of one rupee, be returned to him.

(8) No additional fee will be charged to any candidate referred by the examiner for special examination or for the special examination allowed to a candidate who appeals against failure. If, however, a candidate, who has been reported by the special examiners as having failed, is still dissatisfied, it will be open to him, if he so desires, to present himself for a second special examination on payment of a fee of Rs. 75, provided that he brings with him a friend to witness the examination. This second examination will, however, be entirely voluntary, and will form no part of the examination for a certificate of competency. Consideration will, however, be given to the result of such examination in determining whether a certificate shall be granted.

Insert the following as rule 27 :—

27. The sight tests are open to all persons serving or intending to serve in the Mercantile Marine, and all such persons are recommended to take the earliest opportunity of ascertaining whether their vision is such as to qualify them for service in that profession. Any such person, if desirous of undergoing the tests, must make application to the Port Officer on the Form Exn. 2a, and must pay a fee of one rupee.

This fee will be payable on each occasion on which a candidate is examined.

In clause (*b*), rule 31, *delete* the word " rough " in the second line.

For clause (*l*), rule 31, *substitute* the following :—

(*l*) To find on a chart or plan the course or courses to steer and the distance or distances from one given position to another; to find the ship's position together with the set and drift (if any) on the chart or plan from cross-bearings of two objects; to find the ship's position from two bearings of the same object, the course and distance run between taking the bearings being given, making due allowance for a given tide or current; also, the distance of the ship from the object or any given position at the time of taking the second bearing; and to state what the small numbers and Roman numerals found on a chart indicate, and give a method of finding approximately the time of high water at any given place without the aid of the Admiralty or other Tide Tables. *See* Appendix H.

After clause (*p*), rule 31, *insert* the following :—

(*q*) The markings, signs and abbreviations on Admiralty charts or plans.

(*r*) The General Notices published in the Board of Trade Summary of Notices to Mariners.

In clause (4), rule 40, before the word "paragraphs" in the first line *insert* the word "sub."

For the figure "16" in the sixth line *substitute* "15"

For the word "six" in the last line *substitute* the word "five."

Insert the following as rule 103A :—

103A. For all certificates of competency as Master or Mate in the Mercantile Marine, the qualifying service usually required is service performed in ordinary trading vessels. While the Regulations provide for the acceptance in part of certain kinds of non-trading service (*e.g.*, that performed in fishing-boats, yachts, pilot vessels, &c.), non-trading service not specially provided for in the Regulations cannot be accepted as qualifying service unless it has been submitted to Government and their sanction obtained.

For rule 112, *substitute* the following :—

In charge of a watch

112. When service in charge of a watch in either the foreign or home trade is specified in the Regulations, candidates for certificates of competency as First Mate must be able to prove that during eight months at least of their service they have kept full regular watch *during the whole voyage*, i.e., *from port to port*, which, if in the foreign trade, must amount to not less than eight hours of each 24 hours' service. Where a candidate can prove eight months of such full service, service performed in cases where watches were doubled at any time during the voyage will be accepted as equivalent to half the same period of full watch-keeping service. No amount of occasional service will, by itself, be accepted as qualifying service. Candidates for certificates of competency as Master will be required to have served during the whole of the time specified by the Regulations, in full charge of a watch, and no service performed under the system of double watches except as the senior officer will be accepted as qualifying service for a certificate of this grade. Great care must be exercised by the Port Officer in regard to such service, and unless the candidate produces a clear and satisfactory testimonial specially setting forth the above facts from the Master or Owner of the vessel in which the service was performed, it must not be accepted.

Insert the following before the last paragraph of Appendix C :—

APPENDIX O.

THE SIGHT TESTS.

These tests must be conducted under the strict personal supervision of the examiner. A careful record must be kept of all mistakes made by the candidate in the form vision test, and on *no account whatever* must a candidate be allowed to make his selections in the colour vision test during any temporary absence of the examiner.

Each examiner must keep a record of all candidates passed by him for reference when required.

1.—FORM VISION TEST.

1. *Form vision test to be passed first.*—The first test which the candidate is required to undergo is the test for form vision, and until he has passed this test he must not be allowed to proceed further with the examination.

2. *Apparatus used.*—The form vision test to be used for all candidates is that conducted on Snellen's principle by means of sheets of letters. Sets of eight of these sheets are supplied to examiners.

3. *Object of the test.*—The object of the form vision test is to determine whether the candidate can reach a sufficient standard of visual acuteness, or, in other words, to find out whether his eyesight is good or bad.

4. *Standard of vision required.*—With the exceptions indicated below (*see* paragraph 8), every candidate for a first certificate of competency will be required to possess normal vision. Every candidate for a second or higher certificate will be required to possess normal vision.

"Normal vision" is defined, for the purpose of these Regulations, as ability to read correctly nine of the twelve letters in the sixth line and eight of the fifteen letters in the seventh line of a test sheet placed in a good light at a distance of 16 feet from the eye.

5. *Spectacles not allowed.*—During the examination for form vision candidates must not be allowed to use spectacles or glasses of any kind, or any other artificial aid to vision.

6. *Method of testing.*—The test sheets should be hung on the wall, *in a good light but not in a direct sunlight*, at a height of five or six feet from the ground. The candidate should be placed at a distance of exactly 16 feet from the sheets, and exactly opposite them. This distance should be carefully measured, and should never in any circumstances be varied.

One of the sheets should be exposed, and the candidate should be asked to read the letters on each sheet, beginning at the top and going downwards. Any mistakes which he makes should be carefully noted. If then it is found that he has read correctly at least nine letters in the sixth line and eight letters in the seventh line of a sheet, the candidate may be considered to have normal vision and the entry "5/5" should be made in the appropriate column of the form of application (Exn. 2 or Exn. 2A, as the case may be).

7. *Passing or failure.*—If at the conclusion of the test the candidate is found to reach the required standard, he may be considered to have passed, and the examiner should proceed to test him for colour vision. If the candidate fails to reach the standard required for the certificate entered for, he should be tested with at least four sheets, and the examiner should fill in a Form Exn. 17b, and should forward it, with any remarks he may wish to make, to the Principal Examiner for his instructions as to whether the candidate is to be regarded as passing or as failing in form vision.

8. *Lower standard required in certain cases.*—Candidates examined before January 1st, 1914, and also candidates examined on or after that date who are already in possession of certificates obtained before that date, may be regarded as passing in form vision if they can read correctly with both eyes at least five of the eight letters in the fifth line of a test sheet.

9. *Tests to be varied.*—The examiner should take care, by varying the order of the test sheets and by every other means in his power, to guard against the possibility of any deception on the part of the candidate.

10. *Result of examination to be reported.*—The result of every examination in form vision should be reported, in the case of a candidate for a certificate of competency, to Government on Form Exn. 2, and to the Port Officer on Form Exn. 14; and, in the case of a candidate for the sight tests only, to Government on Form Exn. 2A.

2. COLOUR VISION TESTS.

I.—THE WOOL TEST.

1. The wools provided are divided into five groups, one to each test skein. The test skeins are labelled respectively I. (Light Green), II. (Pink), III. (Brown), IV. (Purple), and V. (Yellow), and must always be used in the order named. Care should be taken that the labels do not become detached nor the skeins belonging to the different groups get mixed. To avoid this only one group of skeins should be exposed on the table at one time.

A special bag with five pockets is provided in which the wools, when not in use, must be kept in order that they may not become faded or dirty.

2. The examination in the wool test should be conducted as follows :—

The first group of wools is placed in a heap upon a table covered with a white cloth and the first test skein a little to one side of it, care being taken that no strong sunlight falls directly upon the skeins. The person examined should be requested to note carefully the colour of the test skein and then to divide the group into two parts, one part consisting of those skeins which have the same colour as the test skein in them and the other part the skeins which have none of the test skein colour in them. The examiner should explain that there is no exact match for the test skein, as the skeins which contain this colour are all either lighter or darker, and that the only question is the division of those skeins which containt he test colour more or less from those which do not. No difficulty should be experienced in explaining to the candidate what he is required to do, but if the examiner thinks he has not grasped what is required he may himself divide the heap into two parts as a demonstration, mixing the skeins up again thoroughly before allowing the candidate to do the test.

3. When the candidate has dealt with the first test skein each of the four remaining tests should be gone through in a similar manner and in the order named.

4. As the examination proceeds the Examiner should place on one side the skeins which the candidate has wrongly selected as either resembling or not resembling the test skeins, and when the examination is finished, a small piece (say one inch) should be cut off *every one of the actual skeins incorrectly selected* by the candidate and *stitched* to Form Exn. 17c under the proper heading in the spaces provided for each test.

5. The greatest care must be taken that the pieces forwarded are cut off the actual skeins selected by the candidate, in order that there may be a reliable record of the actual selections made by the candidate if any question should subsequently arise.

6. During this test the Examiner should avoid naming the colours of any of the wools and should explain to the candidate that he does not require them to be named by him.

7. The wool test should only be held in daylight. *If a good natural light is not obtainable the test must be postponed.* If dark or foggy weather renders it necessary to postpone the examination until after the examination in navigation or seamanship has been begun, the examiner should not fail to inform the candidate that the latter examination will be cancelled in the event of failure to pass the Sight Tests.

II.—THE LANTERN TEST.

8. A special lantern and a mirror have been provided for this test. The lantern should be placed directly in front of the mirror, so that the front part of the lantern is exactly ten feet from the mirror. Care should be taken that the lantern is properly placed, that is to say, the lights reflected in the mirror must show clearly when viewed through the rectangular aperture on the left of the lantern. The examiner should always satisfy himself that these conditions are fulfilled before commencing the examination.

9. *It is essential that a Candidate should be kept in a room which is either completely or partially darkened for at least a quarter of an hour before he is required to undergo this test.*

10. Before the examination commences the examiner must satisfy himself that the room in which it is conducted is so darkened as to exclude all daylight.

11. The lantern supplied for the examination is so constructed as to allow one large or two small lights to be visible, and is fitted with 12 glasses of three colours—red, white and green. At the commencement of the examination the examiner should show to the candidate a series of lights through the large aperture, and should require him to name the colours as they appear to him. Care should be taken in showing the white light to emphasize the fact that the light is not a pure white. If a candidate makes a mistake of calling this light "red," a proper red light should be shown immediately after and the candidate's attention directed to the difference between the two.

After a series of lights through the large aperture has been shown, the Examiner should make a complete circuit with the two small apertures, requiring the candidate to name the colours of each set of two lights from left to right. To prevent any possibility of the order in which the lights are arranged from being learnt, the examiner should at least twice in each circuit go back a varying number of colours.

A record of any mistakes made with either the large aperture or the two smaller apertures should be kept on Form Exn. 17C in accordance with the instructions thereon.

12. As the lantern itself forms a test for Colour Ignorance, the old Colour Ignorance test becomes unnecessary and should be discontinued.

III.—SUCCESS OR FAILURE.

13. If a candidate with either the large aperture or the two smaller apertures of the lantern mistakes red for green or green for red, he should be considered to have "failed" in Colour Vision.

14. If a candidate makes no mistakes in the wool test, and if the only mistakes made by him with the lantern is to call the white light "red," and if after his attention has been specially directed to the difference between the two he makes no further mistake of this nature, he should be considered to have passed in Colour Vision.

15. If a candidate makes any other mistakes with the lantern, *i.e.*, if he calls white "red" repeatedly or red "white" at all or confuses green and white or if he makes any mistake whatever in the wool test, his case should be reported to the Port Officer and he should be told that the decision as to whether he is passed or failed or a further examination is necessary will be communicated to him in due course. Pending the receipt of the Port Officer's instructions such a candidate should only be allowed to proceed with the remainder of the examination for a Certificate of Competency on the express understanding that the latter examination will be cancelled in the event of failure in the Sight Tests.

IV.—FURTHER EXAMINATION AND APPEALS.

16. If in the cases covered by the preceding paragraph the Port Officer decides that a further examination is necessary, arrangements will be made for a special examination to be held and the travelling expenses necessarily incurred by a candidate in attending such an examination will be paid by Government together with a subsistence allowance at a rate which will be notified to the candidate, but which will not in any circumstances exceed Rs. 5 for each day necessarily occupied in attending the examination. In these cases the above expenses will be paid whatever may be the result of the final examination.

17. If, however, on the report of the examiner the Port Officer decides that the nature of the mistakes made shows conclusively that a candidate is so colour blind as to be unfit to hold a certificate, the candidate shall be considered to have failed.

In cases where, upon the report of the examiner, a candidate is failed by the Port Officer as well as in the cases covered by paragraph 15, Government will be prepared to allow a candidate who is dissatisfied with this decision to appeal for a special examination, but Government will not pay the travelling expenses of any such candidate unless he is reported by the special examiners conducting the appeal examination to have passed.

3.—REPORTS.

18. The result of every test in form or colour vision should be reported to Government on the Form Exn. 2, and to the Port Officer on the Form Exn. 14, when the candidate is up for examination for a certificate of competency: and to Government on the Form Exn. 2A, when the candidate is up for examination in vision only.

All cases of failure should also be reported to the Port Officer on Form Exn. 17B, to which should be attached Form Exn. 17C, containing the pieces of the wools incorrectly selected by the candidate, and the record of any mistakes made with the lantern.

Every report relating to such an examination must be signed by the examiner who conducted the examination.

CALCUTTA, THE 25TH NOVEMBER 1913.

RESOLUTION. No. 5124.

READ—

The reports on Inland Emigration under the Assam Labour and Emigration Act, 1901 (VI of 1901), for the year ending the 30th June 1913, submitted by the Superintendent of Emigration, Calcutta, and the District Superintendents and Assistant Superintendents of Emigration.

THE reports under review deal with the areas comprised within the Presidency of Bengal as constituted at present. No administrative measure of importance was introduced during the year under report.

2. The number of emigrants of all classes recruited in Bengal, Bihar and Orissa, Madras, the Central Provinces and the United Provinces and reported to have embarked at Goalundo during the year under review was 53,253 as against 53,577 in the preceding year. Of this number 43,085 were recruited by garden-sardars working under the control of approved associations, 1,744 by garden-sardars working under Chapter IV of the Act,

and 3,291 by licensed recruiters, as compared with 10,666, 3,760 and 4,319 respectively in the previous year. The number of emigrants from Native States, however, rose from 1,789 in 1911-12 to 5,133 in 1912-13. The steady increase during the last few years in the number of emigrants from Native States has attracted the attention of Government, and there is reason to believe that some residents of districts in British India are sent to Assam in contravention of the provisions of the Emigration Act on the plea that they come from Native States, to which the Act does not apply. The question of undertaking legislation to prevent this abuse is now under the consideration of the Government of India.

3. Recruiting operations were conducted only in the districts of Bankura, Birbhum, Burdwan, Midnapore and the 24-Parganas. The total number of emigrants registered in these districts under Chapters III and IV of the Act was 892 and 314 respectively as against 1,699 and 1,001 in the preceding year. All the labourers recruited by garden-sardars under Chapter IV of the Act were put on contract, but 44 emigrants recruited by licensed contractors for the Surma Valley Districts were forwarded without contract. One thousand three hundred and ninety-seven unindentured emigrants were recruited by garden-sardars accredited to the local agents of approved associations as against 1,303 in the year 1911-12. As in previous years the work of these local agents was generally satisfactory.

Unfavourable reports regarding the conduct of some of the local agents employed by individual employers and firms were received during the year under review, and there is reason to suspect that the success of these private local agents is due in a large measure to the employment of unlicensed recruiters.

4. During the year under report only three licensed contractors worked in this Province as against 10 in the previous year. The total number of recruiters licensed on their behalf was 52, or 24 less than in the year 1911-12. The licenses of eight recruiters were, however, subsequently cancelled for irregularities and misconduct. Of the 1,027 garden-sardars employed during the year in this Province, 52 worked under the ordinary procedure of Chapter IV of the Act and 975 under the control of approved associations.

5. The number of criminal cases in connection with recruitment was 36 as against 35 in the previous year, and the number of persons convicted was 25 as against 17 in the year 1911-12. The reports show increased vigilance on the part of registering and other officers.

6. The depôts, places of accommodation and rest-houses for emigrants were properly inspected and maintained in good sanitary condition. No outbreak of epidemic disease was reported. There was no death among the 3,297 emigrants recruited under Chapter III of the Act during their journey to Goalundo, and only one out of the 3,291 emigrants who embarked died on the voyage. Among the sardari emigrants, of whom 44,836 arrived at Goalundo, four deaths were reported during their transit to that place and only two deaths occurred on steamers among the 44,829 who travelled to the labour districts, while among the 35,565 emigrants who passed through Chandpur, there was only one death. These figures indicate the efficiency of the arrangements made for the transport of emigrants.

7. Two hundred and seventy-four emigrants were repatriated during the year from the labour districts through Goalundo, and thirty-eight coolies who refused to embark at Goalundo on their way to the labour districts were also repatriated.

INDIAN FOREST SERVICE.

Regulations as to the appointment of Probationers, 1914.

1. *Appointments.*—The Secretary of State for India in Council will, in the summer of 1914, make **not less than five appointments** of Probationers for the Indian Forest Service, provided that so many candidates are considered to be in all respects qualified.

In making these appointments, he will act with the advice of a Selection Committee.

2. *Applications for appointment.*—Applications for appointment must be made on a printed form to be obtained from the Secretary, Revenue Department, India Office, Whitehall, London, S. W., and to be returned to him not later than **Wednesday the 1st July 1914.** Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee within three weeks from that date.

3. *Age limit.*—Candidates must be not less than 19 but under 22 years of age on the 1st January 1914.

Note.—For the year 1914 only, candidates who have taken an honours course (or other course specified in paragraph 5) which under the Regulations of the University, occupies four years, will be subject to the age limits which have hitherto been in force, viz., 19 and 23 on the 1st July of the year in which selection is made.

4. *Nationality, &c.*—Every candidate must be a natural-born subject of His Majesty. He must be prepared to give an undertaking, if selected, that he will not marry before he reaches India. If he does so, he will forfeit his appointment. He must be of good physique, and must produce evidence of character to satisfy the Secretary of State for India in Council that he is suited for the Indian Forest Service.

5. *Qualifications.*—Candidates must have obtained a degree *with Honours* in some branch of Natural Science* in a University of England, Wales, or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland.† A degree in Applied Science will not be considered as fulfilling these conditions. Candidates will be required to produce evidence that they have a fair knowledge of either German or French.

Note.—Applications for appointment will be accepted from candidates who on the 1st July 1914 have already sat at an examination for a degree as mentioned above, but have not learned the result of the examination.

6. Should there be more candidates considered to be qualified in every respect than vacancies to be filled, the Secretary of State reserves the right to require them to pass a competitive examination conducted by the Civil Service Commissioners, on the results of which their final selection would depend. Particulars of this examination, which would be held in August, will be found in Appendix I.

7. *Medical Examination.*—Selected candidates will be required to undergo a strict examination by a Medical Board at the India Office, at which particular stress will be laid on good vision and hearing, and to satisfy the Secretary of State for India that they are physically fit for service in the Indian Forest Department (*see* Appendix VI).

Candidates who do not satisfy the Secretary of State for India that they are physically fit for appointment to the Indian Forest Service will not be admitted to the competitive examination mentioned in Regulation 6.

* A Moderatorship in Natural Science or in Experimental Science at the University of Dublin will be considered as fulfilling these conditions.

† Graduates in Forestry at the University of Edinburgh are regarded as satisfying the requirements of this paragraph if they pass the Final Examination of that University in some one branch of Natural Science embraced in the degree in Pure Science.

8. *Period of Probation.*—Before appointment to the Indian Forest Department, a probationer will be required :—

(i) to have obtained, either before selection as probationer, or within the period of two years' probation, the degree or diploma in Forestry at one of the Universities named in the margin ;*

* Cambridge, Oxford, or Edinburgh.

(ii) to have undergone a special course of instruction in Forestry, under the direction and supervision of the Director of Indian Forest Studies appointed by the Secretary of State for India in Council, in such British and Continental localities as may be selected for the purpose ;

(iii) to have passed an examination in certain special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law, Indian Working Plans, and, if required, an Indian vernacular language ;

(iv) to have undergone a final competitive examination in Forestry (*see* Appendix II) ;

(v) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

The period of probation will in ordinary cases be two years. The Director of Indian Forest Studies will instruct probationers in each case as to the order and manner in which they should fulfil these various requirements.

9. *Charges.*—The probationers will be required to defray all expenses of lodging, board, tuition, and excursions, while at the University, and on practical instruction in Great Britain and on the Continent, with the exception of fees payable to local forest officers in Great Britain and on the Continent.

10. *Allowances.*—The Secretary of State for India in Council will make payments to each probationer at the rate of 120*l.* annually, not exceeding a total of 240*l.* (besides the fees to local officers mentioned above). These payments will ordinarily be made on the following dates in each year :—

	£
On the 1st December	30
On the 1st March	30
On the 1st June	60

The cases of probationers whose probation does not extend over the full two years will be specially considered.

The grant of the allowances is subject to the following conditions :—

(*a*) that the progress of the probationer in his studies is satisfactory ;

(*b*) that the probationer gives security to refund the payments in respect of this advance, as well as such payments, not exceeding 60*l.* in all, as may have been incurred by the Secretary of State on the probationer's behalf in respect of fees to local forest officers, in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 13, or failing to join the Indian Forest Service at the end of the period of probation.

11. *Conduct.*—Every Probationer will be required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State, and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he will be liable to have his name removed from the list of Probationers.

12. *Appointment and Seniority.*—Probationers who comply with the requirements of Regulation 8 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, will be appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. Their position in the provincial Forest Lists will be determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies ; but

in making selections for the post of Conservator, officers joining the service in the same year are reckoned as equal in seniority unless the Secretary of State for India in Council shall for special reasons have directed otherwise in any particular case or cases.

Probationers will be allowed at the end of the period of probation to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

13. *Articles of Agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and must engage his own passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

14. *Passage Allowance.*—An allowance on account of passage to India will be paid to each probationer on appointment to the Indian Forest Service, to the amount of 37*l.* 10*s.* for passage to Calcutta, Madras, or Bombay, and 43*l.* for passage to Rangoon.

Note.—The above is the normal rate of passage allowance. In consequence of the surtax of 10 per cent at present charged by shipping companies in respect of passages to India the above rates of passage allowance have been raised to 41*l.* 5*s.* and 46*l.* 5*s.* respectively. Should this surtax be removed, these rates will be reduced to those given in paragraph 14.

15. *Salary.*—An Assistant Conservator of Forests will draw pay at the rate of Rs. 380 a month (equivalent to 304*l.* a year when the rupee is at 1*s.* 4*d.*) from the date of his reporting his arrival in India.

16. *Promotion, Leave, Pension and Provident Fund.*—Promotion, leave, and pension will be governed by the Regulations laid down by the Government of India, and applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. A copy of the existing regulations can be seen on application at the India Office.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service, the pay of which has been recently improved, will be found in Appendix III; a summary of information regarding Leave is contained in Appendix IV; and regarding Pensions and the Provident Fund in Appendix V.

INDIA OFFICE,
October 1913.

Long leave.

1. Furlough and special leave with allowances (*see* paragraph 5) are admissible to an aggregate maximum amount of six years during an officer's service. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

2. Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

3. Furlough on medical certificate may be granted (*a*) to an officer who has rendered three years' continuous service, for not more than two years, but capable of extension up to three years; and (*b*) to an officer who has not rendered three years' continuous service, up to one year in any case, and up to such longer period, if any (but not exceeding two years in all), as the officer may have furlough "due" to him.

* The officer holding this appointment draws, in addition to the pay of his grade, a minimum local allowance of Rs. 200 a month

† These apppintments are allotted to the various provinces as follows:—Burma, 66; Madras 31; Bombay, 27; Central Provinces, 24; United Provinces, 19; Punjab, 12; Bengal, 12; Assam, 13; and Bihar and Orissa, 5; and 4 Imperial Instructors at Dehra Dun.

‡ Until he has passed the prescribed Departmental Examinations, an Assistant Conservator is liable to stoppage of increments of pay. On passing the examinations he will resume drawing pay under the time scale at the rate to which his length of service entitles him.

§ These draw a local allowance of Rs. 150 a month in addition to their grade pay, with the exception of the President, Forest Research Institute and College, in whose case the allowance is at the rate of Rs. 200 a month. Of these 10 appointments, the four posts of Imperial Instructors have been sanctioned for five years for 1912, for the present.

NOTE.—Under the improved scale of salary shown above, no Exchange Compensation Allowance is granted.

4. The allowances admissible during furlough are—

(1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due"—half average salary, subject to certain maximum and minimum limits.

(2) After the expiration of the period for which the foregoing allowances are admissible—one quarter of average salary, subject to certain maximum and minimum limits.

5. Special leave may be granted at any time for not more than six months, with intervals of six years' service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments.

Short leave.

6. Privilege leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumlated up to three months, earned by 33 months' duty. During privilege leave, the officer retains a lien on his appointment, and receives the salary which he would have received if on duty. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave may not be granted for a period of less duration than six months, nor, except on medical certificate, may it be extended beyond two years.

7. Subsidiary leave in India for a minimum of 10 days, usually with half average salary, is granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end and not at the beginning of combined leave.

8. Short leave is also granted to enable officers to appear at examinations, &c.

9. Extraordinary leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

General Rules.

10. Leave of absence can never be claimed as of right, and is given or refused at the discretion of Government.

11. When leave allowances other than privilege leave pay are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1*s*. 6*d*. to the rupee. Privilege leave pay when issued from the Home Treasury (this is only admissible when privilege leave is combined with other leave) is converted at 1*s*. 4*d*. to the rupee.

The amount of pension or gratuity is regulated as follows :—

Officers who have shown special energy and efficiency during an effective service of three years as Inspector-General of Forests or Conservator may, at the discretion of the Government of India, be allowed an additional pension of Rs. 1,000 a year, subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 28 years.

Subject to certain prescribed conditions, rupee pensions are now issued to pensioners residing in countries where the Indian rupee is not legal tender at the rate of exchange of 1*s*. 9*d*. the rupee.

2. A General Provident Fund has also been established on the following basis :—

(*a*) The contribution is compulsory up to 6¼ per cent. on salaries, with voluntary contributions of not more than a further 6¼ per cent. Subscriptions on leave of any kind are optional.

(*b*) Compound interest on such payments is annually credited by Government to each officer subscribing, the rate being at present 4 per cent. per annum.

(*c*) The sum which thus accumulates to the credit of an officer is his absolute property, subject to the rules of the Fund, and is handed over to him, unconditionally, on quitting the service; or, in the event of his death before retirement, to his legal representatives or such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

(*d*) Other forms of life insurance will, however, if they fulfil certain conditions, be accepted in lieu of the contributions in (*a*).

APPENDIX VI.

GENERAL PHYSICAL REQUIREMENTS.

[*Note.*—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service ; and that his discretion is in no respect limited by these Regulations.]

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age.	Height without Shoes.			Chest.	
				Girth when expanded.	Range of Expansion.
	Inches.			Inches.	Inches.
19 to 20	62½	and under	65	35	2
	65	,,	68	35	2
	68	,,	70	35½	2
	70	,,	72	36	2
	72	and upwards		36½	2½
21 and upwards ...	62½	and under	65	35	2
	65	,,	68	35½	2
	68	,,	70	36	2
	70	,,	72	36½	2½
	72	and upwards		37	2½

3. *Measurement of height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. No fixed limit of height is imposed.

4. *Measurement of chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, the posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. Candidates may, not more than two years before they are qualified to compete for an appointment, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions :—

(*a*) Applications must be addressed to the Under-Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement of the candidate's age.

(*b*) Candidates must pay their travelling expenses.

(*c*) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowlege that they will have to submit themselves for a final medical examination by the Medical Board, prior to their appointment.

(*d*) On the other hand, it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit when he presents himself for the final medical examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the Service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.
